THE INDIAN WAR.

On Wednesday morning last
we gave the general outlines of a
skirmish which took place on the
morning of the 3d inst. between
the whites and Indians on the
Cosummes. We also gave the
names of two or three who were
killed during the engagement.
We are now able to lay before
our readers more definite informa-
tion with regard to the skirmish
of the 3d, as well as news of a
skirmish which took place on the
morning of the 4th, in which
Lieut. Col. L. H. McKinney was
wounded.

Capt. Stewart, of company A,
arrived in town yesterday, with
despatches from Col. Rogers for
Brig. Gen. Winn. Capt. Stewart
brings the mournful intelligence
that the wounds of Lieut. Col.
McKinney were so severe as to
cause his death. It seems that
he was pierced in the breast by
an arrow, but that he had suffi-
cient strength to catch and hold
the Indian who shot the arrow un-
til a young man could come up
and kill the Indian. Col. Mc-
Kinney died in about three hours
afterwards. His body was car-
ried to Coloma, where it was de-
posited in the grave with martial
honors.

The following is the dispatch
from Col. Rogers, giving an ac-
count of the severe skirmish that
took place on the 3d inst.:—[Sac.

HEADQUARTERS, ?
Johnson's Ranch, Nov. 4, 1850.
Sir:—Enclosed you will find Major
E. W. Boon's report of a slight skir-
mish on the South Fork of the Cos-
umnes River.

I now report to you of a severe
action having taken place on the
morning of the 3d inst., (yesterday)
which lasted for five hours, in which
we had but ten men engaged, and
enemy numbered at least one hundred
and fifty, and all well armed, that is,
with rifles and shot guns. Of the
Indians there were fifteen killed on
the field, and from the numerous
trails marked with blood, there must
have been a great many very severely
wounded. On our part we had
two killed, Hugh Dixon, (a Dela-
ware Indian) Calvin Everts, and one
dangerously wounded, the well
known guide of Col. Fremont, Capt.
Francisco de Allison. The party
engaged have served through the
whole campaign, though through
some neglect, as they were on de-
tached service, their names were not
entered on the muster rolls forward-
ed yesterday. That the men behaved
with the greatest coolness and brave-
ry, you can easily presume, from
the large odds against them and the
duration of the battle.

We are now satisfied that there
are white men amongst them. There
was one killed in the party that at-
tacked us yesterday. The Indians
are rising in all parts of our neigh-
borhood, and I am determined to put
them down.
I am sir, your obedient servant,
WILLIAM ROGERS,
Colonel Commanding.
To Brig. Gen. A. M. Winn, Sac. City.

The following is the report of
Major E. W. Boon, giving an ac-
count of the skirmish on the 4th
instant:—
CAMP COSUMNES, Nov. 4, 1850.

Sir: I have the honor to report to
you of an action with a party of In-
dians, number not known, having
taken place this morning, between
the hours of ten and twelve o'clock,
near the north bank of the south fork
of the Cosumnes river. Owing to
the roughness of the country, and
the difficulty of marching troops with
any degree of rapidity encumbered
with provisions, &c., our foes made
good their retreat, with the exception
of one, who was killed by Lieut. Col.
L. H. McKinney. I regret to say
that that officer was very dangerous-
ly wounded in the skirmish. One
private, of the mounted company,
was also slightly wounded.

We are fully satisfied that we are
in the vicinity of a large force, and
expect to come up with and punish
them in two days, at the farthest.

Two stolen horses were taken, and
from what information we can gather,
they doubtless have a large quan-
tity of stolen animals.

I have the honor to subscribe my-
self, &c.,
E. W. BOON, Major Comd'g,
To Col. Wm. ROGERS,
Comd'g. El Dorado Co. Forces.

CALIFORNIA SETTLERS.

The best kind of population
now in California are those who
mean to make permanent settle-
ments. Men who have left the
States with their families, not
only for the purpose of bettering
their pecuniary condition, but also
with a view of gathering com-
forts around them which they
conceive were not attainable in
the older States. This kind of
population are locating upon pub-
lic lands and making improve-
ments which will be advantage-
ous, not only to themselves, but
do much for the rapid cultivation
of the large tracts of arable soil
that are met with not only in the
valleys along our larger water
courses, but also along those of
more humble pretensions.

The rolling nature of this coun-
try is such as to prevent irriga-
tion except from the larger
streams, where extensive tracts
of land border; but even without
this, large garden crops can be
successfully cultivated, as has
been proved by this spring's expe-
rience on ranches on Bear River,
as well as near the South Fork
of the American River. The small
extent of land which has been
brought into cultivation, along
the stream last named, is scarcely
sufficient to entitle it to the term
of ranch; (which is generally un-
derstood as comprising a consid-
erable extent of territory,) yet
such as has been brought under
the influence of the plough, spade
and hoe, has demonstrated quite
clearly that the earth contains
generating qualities, and the cli-
mate is not entirely devoid of
fruitful influences.

Several of the large mining
towns in the east and north were
dependent, in some degree, for
fresh vegetables, upon small
tracts of land that had been taken
up in their immediate vicinities.
Several farms were located a few
miles from Placerville, and land
was enclosed a few miles south-
east of Weaverville, which yielded
a good supply of vegetables, and
paid those engaged in the enter-
prise far better than the wages
received by an ordinary miner.
We may expect the coming sea-
son to find a small garden attach-
ed to each miner's cabin, and
himself instead of being only a
consumer, as previously, will be
in part a producer.

This will not interfere to any
great degree with the business of
large producers; for the increase
of populous towns, and the diver-
sity of labor in a general way will
create a market quite sufficient
for the supplies that may be af-
forded.—[Sac. Transcript.

A man named Davis, who
has a rancho and lives on the op-
posite side of the river, stabbed a
man by the name of Wm. B. Ra-
ney on K street, a few doors
above Sixth street, yesterday
evening, causing almost instant
death. From what we have been
able to gather, it appears that Ra-
ney and another person had left
mules in the corral of Davis the
day before, and yesterday a third
person came along, claimed the
mules and said they were stolen.
Davis and the claimant crossed
the river for the purpose of find-
ing the persons who had left the
mules, and recognizing Ra-
ney, charged him with having stolen
them. A few words passed, fol-
lowed by blows. It appeared by
testimony before the coroner, that
Ra-ney struck the first blow.
After a few blows had passed the
deceased put his hand in his
breast, and Davis, supposing he
was getting a deadly weapon,
drew a large knife and stabbed
him in the left breast, when Ra-
ney fell and in about twenty min-
utes expired. No weapons of any
kind were found on his person.

Davis gave himself up to Jus-
tice Bullock, but that officer was
compelled to hold over the case
until this morning.

Wm. B. Ra-ney crossed the
plains this year; he was twenty-
five years old, and resided in
Hartsville, Sumner county, Tenn.

CALIFORNIA POLITICIANS.

There are some people in this
country who still have enough
party feeling left to make them
wish to know what the political
complexion of the next Legisla-
ture will be. In order to oblige
such people, we have taken con-
siderable pains to learn the poli-
tics of the members elect, and all
the knowledge we could obtain
has been published. In doing
this we thought we should be se-
conded by other papers, and thus
have the matter settled. This has
been the case, except with one
party paper, which gathered up
our statements, declared them
humbugs, and while it professed
to understand the subject entirely,
it dared not venture particulars.

The inference is that it don't
know its own men, or else that
members elect have not all de-
cided what principles to advocate
in California. We incline to
think the latter is the difficulty,
for a great deal of logic can be
used to prove that an old politi-
cian has a perfect right, to com-
mence on a new platform in this
new and original country. We
came across a member elect yes-
terday from one of the upper
counties, and at once took the
liberty of asking his politics. He
replied by saying that he had
drifted about for a long time on
the ocean of politics without chart
or compass, and when he was a
candidate no one ever asked him
to define his position on anything,
except to promise to go in for the
miners. "Now," said he, "I have
promised to advocate the mining
interests; does that compel me
to take party grounds with Clay,
Webster, Cass, or Old Bullion?
Do I go in for the whigs or the
democrats?—for I'll be hanged if
I can tell. I have inquired of the
leaders of both parties, but they
don't know the points of the com-
pass." When we make out an-
other list we shall set down that
hombre as half-and-half, but open
to conviction, whenever an issue
presents itself.—[Transcript.

HEALTH OF STOCKTON.

It is with much pleasure we are
enabled to announce that for the
past three days no new cases of
Cholera have appeared in our
city. The disease made its ap-
pearance on the outskirts of the
town, among the Mexican pack-
ers, who live in exposed situations
without shelter, and upon diet,
not in all cases of the most
healthy character. On Sunday
last, several died with the disease,
but since then it has gradually
disappeared, until at present we
know of no cases in our city.
This is another evidence of the
healthy location of Stockton. No
care whatever has been taken to
protect the city against the ap-
proach of this dread contagion,
for the air is partially infected
around us with dead animals, the
offal from slaughtered animals,
&c., and the channel in the very
heart of the city is made a recepta-
cle for all the spoiled provisions
thrown from our stores and restau-
rants; these should in the com-
mon course of cause and effect,
engender disease, but our atmos-
phere is fortunately so pure that
even foul gases cannot sufficiently
infect it to keep the pestilence
among us.

A number of the citizens of Sa-
cramento have fled here for safety
from the ravages of the disease in
their town, and we rejoice that we
have so healthy a haven to wel-
come them to. They are safe in
Stockton or any portion of our sa-
lubrious district.

HEALTH OF THE CITY.—The cho-
lera has abated full one-half during
the past twenty four hours. This is
assuredly most gratifying intelli-
gence. We may now look for a total
cessation of the epidemic in a day or
two. But very few new cases are
occurring, and a much larger pro-
portion of them yield to treatment.
[Trans. 8th.

Dodgeville, Wisconsin, has suffered
terribly from the cholera. Since the
first of July, about 85 deaths have
occurred from the scourge.

FOREIGN GOSSIP.

[Translated from French and other Euro-
pean Journals.]

WIVES FOR CALIFORNIA.—A specu-
lator in Paris has devised a matri-
monial association with a capital of
a million francs, and one hundred
and fifty fair Parisians, either vir-
gins or widows; after taking upon
himself all the expenses of the voyage
and matrimonial outfit, and guaran-
teeing an eligible husband, he pro-
poses only to deduct from each mar-
riage portion some 30 or 40 thousand
francs. It would have proved a profit-
able idea were it not for the difficulty
in keeping the commodity up to mar-
ket value, for as soon as the fair
Parisians touched the golden strand
they would take unto themselves
wings and chose husbands to suit
their own free taste. Hence the
speculation failed.

Among the emigrants about start-
ing upon the Californian matrimo-
nial mission are many ladies already
married in Paris. These females
are among those who seek revenge
for the non-emancipation of their
sex, in availing themselves of the
law of divorce. Victims to the ty-
ranny of the old world and liberated
in the new, they resolutely select
Californian husbands to be revenged
upon the deserted Parisian tyrants.

Is it not to California that Mlle.
N. directs her footsteps, she
who a few weeks ago exposed her
furniture at public auction? Mlle.
N. was in perfectly easy cir-
cumstances, and might have remain-
ed so. Marvels were told of the
costliness of her saloon furniture, of
her luxurious apartments. Two la-
dies of fashion, desiring to witness
the magnificence of the fair trans-
gressor's apartment, visited the cham-
bers of Mlle. N. 's the morning
before the sale, and there, at the sight
of all this gold, velvet, rosewood,
rare furniture and costly articles of
decoration declaimed loudly against
this perversion of good taste and
luxury to cater to dishonest ease.
Mad. de L., one of the visitors, par-
ticularly noticed a portrait in mi-
niature—it was that of her husband.
Her indignation knew no bounds,
but finally vented itself in an attack
upon the nerves.

The morrow she attended the sale,
purchased the portrait, and exhibited
it to her faithless spouse, indicating
whence it came. There were no
means for denying the identity of the
picture. The husband reflected for
an excuse:

"It was taken before our marriage,
my angel!"

"Truly so?" ejaculated the in-
censed wife—"There must then be
some proofs to confound your ef-
rontery."

"What would you say?" answered
the husband coolly, "you speak of
proofs, produce them."

"Look at the bottom hole of your
coat in that portrait."

"Well?"

"Well! It is decorated with a
riband; you were only made a knight
after our marriage."

The husband was confounded, and
stalked from the room, venting a
curse upon inventors of orders of
knighthood.

We have lived to see ano-
ther of the wonders of the world,
a real chandelier lined with gold.
It appears that an individual in
this city the other day purchased
a chicken for which he paid two
dollars. He handed it over to the
cook of the Pacific Eating House,
for the purpose of being killed and
having the fowl served up in
epicurean style. The cook took
the doomed cock to the block, and
beheaded him. While cleansing
the gizzard of the chicken, the
cook's attention was attracted by
glittering dust, and after some
care he gathered about seven
dollars' worth. Of course no one
can longer doubt the truth of the
fabled gold-egged hen; and the
only pity is, that the fowl on the
present occasion was not one of
the feminine species, as in that
case it might have been a fortune
to its owner.—[Sac. Transcript.

CORONER'S INQUEST.—Lawrence
Wolf, late of Galena, Illinois, was
found dead yesterday morning, in a
wagon which stood at the corner of
I and 14th streets. It appeared that
he had been suffering from diarrhoea
for three or four days past, during
which time he had lain in the wagon,
without attendance or medical aid.
The Coroner held an inquest over the
body, and the jury rendered a verdict
of "death from diarrhoea."—[Sac.

AN EXTRA SESSION OF THE LEGISLATURE.

Our advocacy of an extra session of the Legislature, has called forth no little discussion from the press, and the readers generally; but as yet not a single good reason has been brought forward in opposition to the project. One or two minor journals which we will not dignify by naming, have denounced the suggestion in severe terms and bitter words, but the temper of the articles shows that it is not from reason or good sense that their opposition originates, but simply from ignorance of the requirements of the State, or from a willingness to sacrifice the public good on the altar of personal ill feeling.

Leaving such short-sighted individuals to hold and express their own views, uncontradicted, we still adhere to our first promulgated opinion, that an extra session of the Legislature is necessary to the financial success and relief of the State. The truth stares all in the face, that California is bankrupt, and worse than bankrupt, because she owes large sums that she is utterly unable to pay, and will not be until some extraordinary means are resorted to for that purpose. This is a plain truth, and it is useless to attempt to dodge it. The only question is, shall Executive prerogative put her in the road to prosperity, pay her debts, and redeem her credit? We say yes, most emphatically, and shall continue to advocate it until some more feasible plan be proposed to accomplish the same end.

California could now get a loan upon the most advantageous terms—more liberal than any new State that ever entered the Union. Two months hence, the power to authorize a loan will have passed away and we shall then be obliged to grope along under embarrassments, submit to the disgrace of seeing State evidences of debt sold at twenty-five to fifty per cent. below par, and the creditors whistling for an advance in the market. This is no fiction, but what is realized every day and hour. It is a melancholy state of things, and we do earnestly trust that the Executive will weigh well the importance of the question, before, as was said by the French people to the Ministers of Louis Philippe on a memorable occasion, "It is too late!"

Those who are best acquainted with the condition of the Treasury, know well that the present debt of the State cannot be met from the proceeds of the taxes for the present year; and how the government is to be carried on for another twelve months without funds, is a problem we are unable to solve. We are not friendly to the creation of a public debt; but if we must choose between evils, in heaven's name let us have a debt based upon the faith of the State, at no more than eight or ten per centum, instead of irredeemable scrip drawing nominally three per cent. a month, but which is selling at 30 per cent. discount, and warrants a lottery, with no prospect of being redeemed.

If measures be not taken, and speedily taken, to provide means for sustaining the credit of the State, (taxation having failed) we shall see the evidences of indebtedness down to twenty cents on the dollar, and slow at that. If such a state of things is desirable for California, then let the demand for an Extra Session be denied. We have yet to hear the first proposition for providing means to pay the public creditor, on the part of those opposing a called session. They cannot bring forward a plan that will do it, if a loan is not authorized by the first Legislature of the State. In fifty days more it will be too late, and we shall then have an opportunity of testing the "untried expedient" of paying the ordinary expenses of administering the State government, without funds.

We would call attention to an important communication made to the Grand Jury, by Captain Geo. W. Casserly, of the Second District Police. We believe that it will receive, as it merits, early attention.

THE SUPERIOR COURT.

Our friends of the Alta, referred the other day to our opposition to this court, in an article which the pressure of matter from the arrival of the steamer, has prevented us hitherto from noticing. They state that the expenses of the court will not exceed \$25,000 per annum, \$15,000 of which is refunded to the city in the way of costs. Were this true, which it most plainly is not, there would be a balance of \$10,000 paid by the city of San Francisco, to afford litigants a cheap court to which they may refer their causes. So far from being true, we believe the Alderman's estimate will fall short of the truth, rather than exceed it.

The rooms occupied by this court, are the most spacious and elegant of any in the City Hall, which building cost a sum of money so immense that we hardly dare state it in figures, for fear that in these modern days it would be discredited. These rooms and the pay of the clerks, will stand the city at \$15,000 per annum. A panel of 49 jurors, kept, if not in constant attendance, at least under constant pay, at \$6 per day in this court, will amount to \$15,000. To this, add \$15,000 for witness fees, fuel and lights, furniture, and other incidental expenses, remembering specially that no economy is used where the city pay the bills, and this sum will barely meet them. We have then the snug amount of \$70,000, in room of that of \$25,000 as estimated in the Alta.

Now, we wish it distinctly understood that, we do not take the ground of opposition to the Superior Court, from any unfriendly feelings toward any of its judges, or other officers. On the contrary we have the best feelings towards them all. The point of difficulty lies not with them, or in their power to remedy. Even the fact that but few appeals are taken from the decisions of this court, is no argument to support it as it now exists. The facts are these: this court is a grievous and an entirely unnecessary burden to tax-payers in this city. Litigants must and ought to pay their own cost. The French proverb has it—*the beaten pay the fine*, and we know of no reasons why Mr. Van Winkle, a blacksmith down in town, who works hard to earn his money, should pay a heavy tax to enable Gunter, Melhado, et al. mult., to resist the American people in San Francisco, and carry on at a cheap rate, a war of resistance against every one who represents the people here. Why, in short, they should do wrong *secundum legem*, and the city be taxed to pay for enabling them to do so, certainly passes our comprehension. Why, in fact, any court like this, should ever be supported at the public expense is quite a mystery to us. And this fact alone shows a most pernicious error in the establishment of such a court. Let there be felt a want of any institution before we create it; and above all things let those who will go to law do it at their own costs. Besides, our Justices' Courts could easily do most of the business done in the Superior Court, and who would ever dare propose that a Justice of the Peace draw on the city treasury to pay the costs of litigation done before him. We go, then, heart and soul, for abolishing the said Superior Court of the city of San Francisco.

A NEW CHURCH EDIFICE.—We perceive that the First Presbyterian Church are erecting a fine house for public worship on the site at the corner of Stockton street and Broadway. The large and interesting congregation which usually assembles at the Superior Court room and fills it to overflowing, will then soon be better accommodated than at present. Religion has been called "an uphill work" anywhere, and least of all to men who do not love it seek for it in this community. Hence it is, that we witness with so much pleasure the steadily directed efforts of this and all other religious societies in our midst.

THE CARLTON HOUSE.—We are glad to see that almost all our old neighbors on Kearny street, between Jackson and Pacific streets, are once more at their posts, and again doing business in a better condition than ever. Messrs. John Garvey and Thomas W. Brenham, who keep the hotel on the corner opposite the City Hall, are now prepared to treat their friends to the best of every thing required in a first rate public house.

THE SQUATTER TRIALS.—It is anticipated that the trial of the Sacramento squatters will commence in December this morning. They have all been brought down from Sacramento, and are waiting the production of the necessary papers.

INCENDIARISM.—An unsuccessful attempt was made on Thursday night to set fire to Robinson & Ervards' Museum. A lot of mattresses were piled up against the building and set on fire, but a timely discovery prevented any serious damage.

ROBBERY.—James Brummet placed \$318 in charge of some person, who walked off with it.

THE CHOLERA.—We were gratified to announce that about one death from cholera occurred for the twenty-four hours ending Saturday noon. We regret however, to be compelled to announce its renewed violence yesterday. Some fifteen or twenty cases came to our knowledge, four or five of which proved fatal.

In the block on Sansome street, between California and Pine, ten cases occurred. But all this is accounted for by the fact that a hog-pen is kept underneath the building, and that an insufferable amount of filth is in the immediate vicinity. The hog-pen is underneath the New-England Hotel, kept by Wm. D. Wilton, and the whole house is in a bad condition. In one room, 18 by 40 feet, there are sixty bunks! The proprietor of the Merrimack House, corner of Sansome and Pine streets, J. B. Williams, died yesterday afternoon. Two blacksmiths, whose names we did not learn, also died in this house or the same block. The "Kangaroo House" also, in the next block, is a prolific cholera breeder.

The whole neighborhood requires purification, and should receive, as it no doubt will, prompt attention from our efficient Board of Health.

HEALTH OF SANTA CLARA VALLEY.—We learn that the state of health in the Santa Clara Valley, so far as concerns the American population, has never been better than at this time, notwithstanding the great mortality among the Spanish and Indians, whose habits of life render them peculiarly liable to attacks of cholera. The deaths in San Jose for the twenty-four hours ending Saturday noon, were ten—and the total number since the breaking out of the cholera is estimated at nearly two hundred—including Santa Clara and Alviso, fully that number. The disease, however, is abating—the northerly winds and heavy frosts no doubt exerting a beneficial influence in checking the spread of cholera.

RACING IN STOCKTON STREET.—The "fancy," as we have no convenient grounds nearer than Mr. Perkins' course at the Mission, have recently taken sole and exclusive possession of Stockton street, for the purposes of a race course. The late grading which has been done on this street render it admirably fitted for this purpose, and if the police would consent not to interfere, some rare sport might be expected. We understood Mr. Geo. W. Casserly, Captain of Police, to say that this practice is about to be effectually broken up, and that henceforth the families who reside in the vicinity of that fine street, may go abroad at any time even of a Sunday afternoon, unmolested.

SUNDAY EXCURSIONS.—The road to the Mission Dolores, and for miles beyond, was yesterday afternoon thronged with equestrians, among whom was observed quite a number of females. We were amused with feats of horsemanship in a number of well-contested scrub races by the city bucks, who seemed bent on having the full worth of their money. As the poet hath it,

"A sad and weary lot it is," to be a lively horse, even at an ounce a day. When the plank road to the Mission is completed, we may look for some splendid racing by the fancy gentlemen about town.

THE ADELPHI.—This establishment opened with the "Golden Farmer," on Saturday. The Farmer was well played by Mr. Wilson. "Hammer" is a good character, but Mr. Cochrane spoils it by attempting to make too much of it. Jenny Twitchever was admirably done by Mr. Barry. We never saw it performed better. "Old Mohb" was so-so, fairly. "Elizabeth," by Mrs. Phillips, was acting run mad. The farmer's wife, and "Angelica," in the farce by Mrs. Colfer, were decidedly good. An attractive bill is offered for this evening.

NARROW ESCAPE.—On Saturday, about 12 M., as two laborers were employed in Happy Valley, wheeling sand from the bank to a scow, for lightening the bank gave way and buried them both. One was excavated almost immediately, whilst the other remained buried in the sand for nearly half an hour, with the exception of his head. He was at last rescued, and is in a fair way of recovery.

MURDERED BY THE INDIANS.—Messrs. D. Turner, of Spencer Co., Kentucky, and James J. Fryer, an Englishman, were lately murdered by the Indians, at Humboldt. A number of the inhabitants immediately started in pursuit of the savages, and had already killed eighteen of them.

THE ANTELOPE.—This beautiful vessel leaves for Panama tomorrow, and takes a large load of passengers. The reduced rates of fare by this line, will induce the crowd to return by it, especially as the accommodations are of a superior order.

MORE CANDIDATES.—Two or three candidates are already before the electors at Sacramento, to fill the vacancy in the legislature occasioned by the death of Mr. Dunlap.

Esquire, Foreman of the sitting Grand Jury for the City and County of San Francisco.

SIR.—Through you I desire to call the attention of the Grand Jury, now in session, of the City and County of San Francisco, to the utter inadequacy of the City Prison to meet the demands constantly made upon it, for the confinement and detention of prisoners.

Three classes of persons are now brought to the prison, for whom no proper accommodation there exists, viz: Females, Boys, and Lunatics, or Idiots. The first of these, females, are in all cases, as soon as brought in, sent before the magistrate, by whom they are necessarily discharged, there being in prison no sort of means for keeping them separate from the male prisoners.

There are in all but six cells, and these are all adjacent to each other, and open directly into the station house. Of course they only require to be looked at, to show that they were never intended, and are wholly unfit for a mixed class of prisoners.

So also with respect to boys. As recently as yesterday, three boys, aged respectively 16, 14, and 9 years, were committed for horse stealing. The two youngest were evidently not hardened in wrong, but there is too much reason to fear that the contact and association with all offenders, to which they are, by the state of the prison, unavoidably exposed, will speedily, by completing their education in crime, accomplish their after ruin.

Instances of this kind are by no means rare; and one is impelled to ask, by what right does society doom these young and thoughtless beings, for any offence of which they can be guilty, to moral and social perdition.

For those unfortunate fellow-creatures who are permanently or temporarily deprived of their reason, the prison affords scarcely any accommodation required by the commonest dictates of humanity. If confined, the unhappy being is the victim of the rudeness and brutality of the drunken, the disorderly, and the depraved, which but too frequently darken forever the faint glimmerings of intellect, which, if properly managed, might in many cases restore him to society, his friends, and himself. If turned loose into the street, the risk seems nearly as great, and the alternative presented by either course, is painful to every better feeling of the heart.

The large and increasing population of this city, and the character of its criminal Police, render a great reformation of the prison accommodation a matter of imperative necessity, which cannot be longer delayed without serious injury to public morality, order and the laws.

I would further invite the attention of the Grand Jury to the almost universal habit, among the disorderly and depraved class of our population, of carrying concealed upon their persons, firearms, knives, slung shot, and other deadly weapons, with which they are ever ready to assault the Policeman, in the discharge of his duty, to the jeopardy of life and limb.

The increasing prevalence of this dangerous practice, in defiance of existing provisions of law, indicate that further and more severe legislation is demanded for its suppression, as well for the safety of the citizens generally, as for the protection of the officers of Police, on whose security and energy in the performance of their duty, so much continually depends. I am, sir,

Very respectfully,
Geo. W. Casserly,
Capt. 2d Police District.

THE FLAKER AND CHOLERA.—The Placer Times of Friday last—by the way, we have not seen this paper for a week, before, and have received but one now,—has a very bilious leading article respecting the San Francisco press keeping back the truth as to cholera here. Now, we do not know the sources of information of the Times; but we do know, for we have been in every part of the city where any cases of the disease have occurred; have talked with and handled the patients and the dead, and we do positively know that the papers of this city, have uniformly exaggerated rather than concealed the number of cases which have occurred here from this disease. Now, Mr. Plaker, this will do very well for you to talk about in Sacramento, where you haven't got so well like we have, nor nary speck of truth at the bottom of it.

AUCTION SALES THIS DAY.—Garrison & Co. will sell the furniture and fixtures of the American Hotel, on Portsmouth Square, at 11 o'clock today.

Jas. B. Hair & Co., at 10 o'clock, will sell a variety of desirable goods. Starr, McIntire, & Co., sell at 11 o'clock, a blacksmith shop, lumber, &c.

President Strong has resigned as a member of the Sacramento Common Council, and has gone to New York for his family.

THE SEA GULL.—This vessel left on her second trip to Oregon, yesterday morning.

A correspondent of one of the Panama papers makes mention as follows of the new Union Hotel, just opened by Isaac M. Hall, on Portsmouth Square:

"As another evidence of our greatness, and to convince you that some things can be done as well as others, let me give you some statistics in relation to a new hotel just erected by Messrs. S. Glover & Co., fronting the Plaza. It is of brick and iron, completely fire-proof. It is five stories high, 160 feet in length, 29 feet wide, and contains 100 rooms. The number of bricks in the building is 500,000. The dining room is 80 feet in length, and will seat 200 persons. The bar-room is splendidly fitted up, and is embellished with magnificent chandeliers, Paris mirrors, and beautiful paintings. The whole cost of the building is over \$100,000, and it has been put up and finished in the remarkably short space of twenty-six working days! Talk about New York and other Atlantic cities, will ye, after reading this? Why, New York, in all her glory, is not a patching to what San Francisco will be presently. We have got among us a man, Mr. F. H. Southworth, a manufacturer of gold and other scales, who is now making arrangements to commence the construction of a huge pair of these instruments, which will be finished in about six months, when they will be placed astraddle of the Sierra Nevada mountains, and New York is to be hitched on by the 'slack of the trousers' at one end, and San Francisco on the other. Bets are already running high, that New York, when weighed in the balances, will be 'found wanting.'"

INQUEST.—The dead body of a man was found, yesterday morning, about three-fourths of a mile from City Cemetery, lying on some blankets, and covered with an overcoat—a white Californian hat over the face. From appearances, it must have lain in the same position for six or eight days. By the side of the body a carbine, powder-horn and shot-pouch, were found; and in a pocket was a memorandum book in which were written the following names: "Daniel Rice, Wm. H. Spens, C. C. Spens, J. Wills, (sick)," besides a few remarks about "Fishing sales," in which the names of A. Wagner, F. Frost, and C. C. Baker were mentioned. A jury summoned by the Coroner rendered a verdict of "Death from causes unknown." [Transcript.]

FROM EL DORADO.—We are in possession of advices from Coloma up to November 6th. They contain nothing later than what has been published, except that after the five hour skirmish additional forces were raised at Placerville, and Weaverville, sufficient, no doubt, to succeed in driving the Indians into the mountains. After the news arrived at Coloma of the engagement in which Col. McKinney was mortally wounded, Dr. Taylor, an efficient surgeon, with several others, started for McKinney's camp to render all possible assistance.—[Sac. Transcript, 9th inst.]

POISONING.—D. W. E. Vielly was brought before Justice Ellet, day before yesterday, on a charge of poisoning, with arsenic, Col. Kirkpatrick, his son George, and a Mr. Donahue. No defence was made on the part of the accused. The testimony against him was strong enough to induce the Justice to bind him over. The poisoned parties are in a fair way of recovery. They reside at Long Bar. [Marysville Herald.]

GENERAL RILEY.—Brig. General Bennett Riley, ex-Governor of California, arrived in Philadelphia on Monday, with his family, and is stopping at the United States Hotel. General Riley reached New York just when Jenny Lind was the great object of interest, and the Philadelphia Bulletin well says that it is little to the credit of Gotham, that the hero of Contreras should be unnoticed, while the whole city was prostrated before the Swedish Nightingale. General Riley has seen more hard service than any other man.

DEATH OF A SHIPMASTER.—The shipping in our harbor displayed their colors at half mast on Saturday, as a mark of respect to the memory of Capt. E. N. Reed, master of the schr. Wilmington, of Baltimore. Capt. Reed died from the effects of an overdose of laudanum, taken by himself as a remedy for an attack of dysentery.

GEN. RILEY.—By the letter of our Washington correspondent, it will be perceived that this accomplished officer has reached Washington, and is now under orders for Texas, where the Indian difficulties are thickening.

BEACH AND WATER LOTS.—We are indebted to Ald. L. T. Wilson for a pamphlet copy of a Report of the Commissioners appointed to examine into the matter, on the condition of the Beach and Water Lots of the city.

FILLING THE RESERVOIRS.—Several of the fire companies were out yesterday for the purpose of trying their machines, and filling the reservoirs.

SLIPPERY GENTLEMEN.—The other day a miner entered one of our Jew stores on J street and purchased several articles, for which he paid the dust. The Jew remarked the cleanliness of the gold, offered \$16 25 for ounce, for all in the bag. The owner consenting, the Jew tumbled it into the scales, threw in his weights hastily, and then placed the gold in another lot in his possession, remarking that there was just \$143. The Miner was wide awake, however, having had it previously weighed, and told Mr. Jew that he had just \$500, and the quicker he forked up the coin the better it would be for him. The Jew parleyed, when the miner drew one of Colt's revolvers, which had an electric power in convincing the Jew of his mistake, and forthwith he paid the miner the whole of his demand, remarking that he believed he was mistaken.—[Sac. Transcript.]

THE ROTHSCHILD OF CALOMA.—The Watertown (Wis.) Chronicle of the 11th inst., gives a brief history of the career of Mr. John F. Little, who once taught young ideas how to shoot within a few miles of that city, and subsequently removed to Michigan, with his wife, whom he had chosen from among the pupils in his school. He failed in business, returned to his native place, in the State of Maine, remained there until February, 1849, when he was taken off to California by the gold fever.—In as short time, thro' goodfortune as a merchant, he became possessed of great wealth, and is now one of the pillars of society in the town of Caloma, situated on the south fork of the American river. This is a specimen of the results of genuine Yankee shrewdness and perseverance, undismayed by disaster and difficulties. [Detroit Paper.]

CHOLERA.—The Board of Health reported only one new case of cholera for the twenty-four hours ending Saturday noon.

DIED.

In consequence of the prevalence of an epidemic at Sacramento City, and upon the application of several Lodges under the jurisdiction of the Grand Lodge (in consequence thereof) for a postponement of the semi-annual meeting from the first to the fourth Tuesday in November, I have deemed it prudent and proper to direct the said semi-annual meeting to be adjourned accordingly. The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skillful driving of Professors Dillon or Crandall, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to safety, while the drivers, who have served a long apprenticeship from New England to Mexico, make the quickest time and never meet with accidents, which are so likely to occur with the old fashioned stage coaches. We invite our old friends to give the line a trial.

The building has been erected within the last three months; built of brick, entirely fire-proof, five stories high, fronting on Portsmouth square, 30 feet, and extending back 100 feet on Merchant street. Each room is furnished complete; beds are fitted up, communicating with the office from each room. The dining room will accommodate 150 persons, and the public may safely confide in the well known talent of Mr. Hall to make this department one of the most inviting of the house; all the delicacies of the season will be found on the table, and the wines the best the market affords. The proprietors confidently entertain the hope that this enterprise, involving at least \$150,000, will meet its due appreciation by the public, and that the effort on our part to present a home where every comfort afforded in hotels in the Atlantic States may be found, will meet the reward of public patronage.

A. A. SELOVER, JOHN MIDDLETON, Proprietors. E. V. JOSE, San Francisco, Nov. 5, 1850.

PROCLAMATION

The Governor of the State of California, to all to whom these presents may come, greeting:

In compliance with the long established and appropriate custom of our fathers, as well as in accordance with his own feelings, the undersigned, Governor of the State of California, hereby recommends that Saturday, the thirtieth day of November, one thousand eight hundred and fifty, be set apart and observed by the people of California, as a day of solemn thanksgiving to the Supreme Ruler of the Universe, for the unnumbered blessings bestowed by Him upon our young State and people; and especially for our admission into the happy family of States.

Given under my hand, at the Pueblo de San Jose, the fourth day of November, in the year of our Lord, one thousand eight hundred and fifty, and of the Independence of the United States, the seventy-fifth.

PETER H. BURNETT.

LARGE GOLD COINS. An important measure to commerce, in connection with the gold of California, has just been brought forward in the Senate, by Mr. Gwin, senator from that new State. It proposes, virtually, that gold coins of the value of from one hundred to ten thousand dollars each shall be struck at the mint.

The circular form hitherto universally followed for small coins, which had its origin in the rude, ancient contrivances of dropping the melted metal from a ladle, to be then struck with a punch and hammer, adapts them to our purposes, but would not be appropriate for these gigantic coins, designed for heavy transactions at home and exchange abroad, that they may be convenient for packing in boxes.

These huge rectangular coins are but a valuable and ingenious improvement upon the limited and already existing system of European bankers. They are to be struck of refined gold, of uniform fineness, and with appropriate legends and devices, similar to those upon our smaller coins, with their values conspicuously marked, and the inscriptions *Liberty and United States of America*. Counterfeiting and mutilation are provided against by suitable contrivances and penal enactments.—[Exchange Paper.]

VIRGINIA GOLD.—We saw a rich sight yesterday at the counting room of Messrs. Deane & Brown, viz: thirty-eight bars of solid gold, weighing 5,855 penny weights, and worth nearly one dollar a penny weight. These bars were produced in the "Booker Gold Mine," in Buckingham, now owned by Messrs. William Mosely & Co., and were the result of only 60 days' work. The success of these gentlemen has been truly gratifying, and we rejoice that their enterprise and sagacity has been so well rewarded. There are two other mines in Buckingham in successful operation, one worked by Mr. J. W. Beebe, and the other by Mr. F. W. Wissman. We understand the gold business in that country has created a fine demand for labor. [Richmond Times.]

PANAMA RAILROAD.—The Chief Engineer of the Panama Railroad Company, Mr. J. C. Trautwine, with nine assistants, sailed from this port on Friday, in steamship Cherokee, for San Juan de Nicaragua, to join his associate, Mr. Totten, in the prosecution of the Panama Railroad enterprise. Large quantities of material to be used in the construction of this road having already been forwarded from the forests of Maine and from this city.

An iron steamer is also in process of construction for the same Company, at Mott & Ayres' Chelsea Iron Foundry, to be finished and sent round in three or four months. She is 125 feet in length, 22 in breadth, 7 in depth, and will be provided with two powerful engines. [N. Y. Jour. Com.]

CHOLERA.—On Saturday and Sunday we heard of ten or twelve cases of cholera in the outskirts of our town, among Mexicans living in a very exposed manner, having no other shelter from the cold damp night atmosphere than that of a tree, and a meagre supply of blankets. We do not wonder that they die, but on the contrary, it is a matter of surprise that mortality is not greater among them than it is, when we consider, in connection with the exposed manner in which they live, that they are entirely void of discretion in eating unwholesome fruit and water melons. [Stockton Jour.]

Mr. E. L. Youmans, City Undertaker, handed in his bill yesterday to the Common Council, for coffins furnished to the destitute poor, during the period from Sept. 3d, to Oct. 31. Those furnished, at \$25 each, amounted to \$4,250! This exhibits a frightful picture of mortality for the last month.—[Sac. Transcript.]

There are four persons now under sentence of death in Connecticut.

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO wish Homes. Having completed my survey in the southern part of the city of San Jose, in all 300 lots, 25 by 47 1/2 varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 40 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen in any other northern part of us, in California; and the grain-growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE and HEALTH.—Listen, now!—The average summer heat is 75 to 80 degs., with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer.—We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 100, sound in body and mind. We have had but one death out of the immigration of 1846, an old gentleman, who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law abiding and a law supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon to the subscriber in the south end of the city. JAMES F. REED. City San Jose, 4th Aug. 1850. n4 tf

KLAMATH GOLD MINES, RI-

ver and Town.—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of \$1.50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith. A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. John Gray, at Messrs. Schultz & Palmer, or to Mr. T. Bunting, at the firm of Worthington, Beale & Bunting, on Montgomery street. o15

THE PEOPLE OF THE STATE

of California, District of the County of Santa Clara: Jose De Arnaz vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c. &c.

Whereas, Jose De Arnaz filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffroy, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffroy be set aside as fraudulent, and that said premises be sold to pay petitioner's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.
